**Rudder elastic cord
exchange guide**

How to exchange the elastic cord on your rudder

1.

If you need to exchange the elastic cord whipulls down the rudder blade, you can do so in a few minutes

2.

The elastic cord, which is available in the point65 on-line store: <http://kayaks.point65.com> should be 21cm long

3.

Pull the end of the cord through the hole ion the side of the rudder (see image above) and make a knot as shown.

4.

Feed the other end through the collared hole oin the blade.

5.

Push it through the hole and pull through on the other side

6.

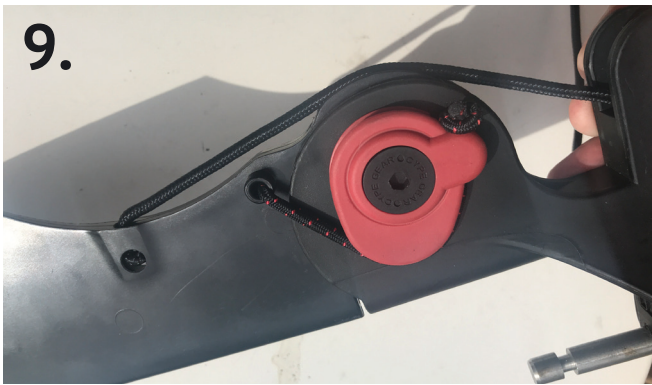

Pull the cord through the hole on the red part of the rudder as shown above. It will be easier to do this if you fold the rudder as this shortnes the length needed.

7. Make a knot on the end of the cord and pull back

8. Pull the cord around the red oval "ear" on both sides

9. The end result should look as on the image above.
